## Simon PASQUEREAU, Frontend Developer

Specialized in building simple, modern, and elegant web applications. Focus on clean architecture, maintainable code, and seamless user experiences across all devices.

### Experience

As Developer

### Software Engineer, Vectice

February 2021 - March 2026

Frontend development on an AI/ML documentation and governance SaaS platform. In charge of the user interface architecture and end-to-end development.

- Designed and developed standard interfaces (homepage, lists, account management) with a focus on user experience
- Built an advanced documentation editor based on Lexical: tables, Gdocs and MSWord compatibility, AI-powered text extraction, comment system, etc.
- Contributed to testing strategy: unit tests, integration tests, and end-to-end tests to ensure code quality and reliability

Stack: Node, PostgreSQL, TypeScript, React, GraphQL, Lexical

### Junior Developer, Easylife

November 2017 - December 2020

Business Web Application Development

- Designed and migrated database models
- Implemented RESTful API
- Built React application frontend

Stack: Node, MSSQL, React, Redux, ElasticSearch

### Experience

As Civil Engineer

### Project Engineer, Keller

2014 - 2015

Site supervision and project management for ground reinforcement and deep foundation works (France & Morocco).

### Education

### IUT Lyon 1

2016 - 2018

DUT Computer Science (continuing education) (2016 - 2018)

### École Nationale Supérieure d'Ingénieurs de Poitiers

2011 - 2014

Degree in Water & Civil Engineering, specializing in Construction & Geotechnics (2011 - 2014)

### Skills

**Core Stack:** React, Typescript, GraphQL

**UI & Styling:** Tailwind CSS, Design Systems

**Tools:** Git, Lexical, Figma

**Practices:** Testing, Clean Architecture, Agile, CI/CD

### Languages

French: Native | English: Professional
